

This is possible

- Your projects bring the desired result (goal).
- The projects remain on schedule AND within budget.
- External technical expertise enriches the internal know-how.
- Service provider and the internal project team work together perfectly.

It is intended for

- Companies that want to secure their important projects through external capacities/competencies.

What we offer

- Taking over the complete project management, the project or co-project management
- Control of the team
- Moderation of the project and steering committee meetings
- Communication, documentation and reporting
- Setting up and using the project management tool
- Use of different project management methods (Lego Serious Play, different agile methods like Scrum, Design Thinking)

This is your personal contribution

- Willingness to delegate
- Adherence to deadlines, endurance and discipline
- Openness, creativity and curiosity
